Brief Description of Courses

Coding: Learn the basics of programming in Python.

Pre-Law: Our goal is to provide a unique experience for students to explore law and litigation.

Business: The goal is for students to learn how to diagnose, analyze, and solve problems in businesses.

Pre-Med: The goals of Pre-Med are to introduce students to the fundamentals of pre-medical studies.

Politics: The goal is for students to learn how political scientists address the important issues of our time and how public officials implement policy in response.
